Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 25 October 2002.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

1. Claims 6-9 and 11-13 remain withdrawn from further consideration pursuant to 37 CFR

1.142(b), as being drawn to a nonelected species, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in Paper No. 9.

2. This application contains claims 6-9 and 11-13 drawn to an invention nonelected with traverse in Paper No. 9. A complete reply to the final rejection must include cancelation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1,3,4,5 and 10 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Thurnauer et al. (3,904,352).

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various

Art Unit: 1731

claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

7. Claims 1-5 and 10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Thurnauer et al. (3,904,352) in view of Tyszblat (5,447,967) for the reasons as set forth in the previous office action.

8. Applicant's arguments filed 10/25/02 have been fully considered but they are not persuasive.

With respect to the rejections under 35 USC 102 and 103 applicants argue:

In contrast to Thurnauer et al. '352, the present invention dispenses with the plates of Thurnauer et al. '352. In other words, the assembly disclosed in Thurnauer et al. is different from the present invention, and the present invention also produces a different product (i.e. less deformation).

This argument is not persuasive. Col. 6, lines 54-64 of Thurnauer et al. disclose that the article to be fired can be placed directly on the spheres or other rollable elements. Further, there is no evidence that a different product (i.e. less deformation) is produced. Note that arguments of counsel cannot take place of evidence in the record. *In re Pearson*, 494 F.2d 1399, 1405, 181 USPQ 641,646 (CCPA 1974).

The disclosure of a ceramic prosthesis in Tyszblat '967 does not account for how the Thurnauer et al. assembly is different from that of the present invention.

Art Unit: 1731

This argument is not persuasive. It is submitted that the Thurnauer et al. assembly is not different from that of the present invention for the reasons as set forth above.

There is no clear guidance in '352 or '967 that would motivate one skilled in the art to produce the present invention. Instead one skilled in the art would use an assembly that makes a sintered object which would have more deformities or drawbacks than when using the present invention.

This argument is not persuasive. As submitted above, Thurnauer et al. discloses an identical assembly and no evidence has been presented to support the allegation the product produced by the present invention would be superior.

9. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

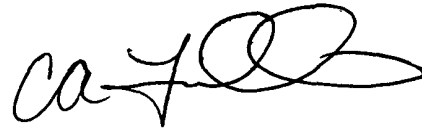

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
